OZBURN-HESSEY LOGISTICS

**BIGGER -  
FASTER -  
STRONGER!**

**MATERIAL  
HANDLING  
RESOURCES**

We at Turbo are delighted to now be part of the Ozburn- Hessey Logistics family of companies. What makes this great for all of our customers is the many additional services we can offer while still maintaining our close relationships with all of you and our attention to detail. Turbo will continue to offer the same superior services we do now, plus have the unique opportunity to offer you many more supply chain management solutions. Thus, the title - **Bigger - Faster - Stronger!**

Bringing our companies together is exciting given the cultural and philosophical synergies Turbo and OH Logistics share. Both companies have been in existence for decades, have always operated on the principles of honesty and integrity, and have a strong customer focus.

You know Turbo and who we are. Now, let me tell you about Ozburn-Hessey Logistics (OH Logistics) and the additional offerings we now have available for you, our valued customers.

As you can see on the map on the next page, OH Logistics offers flexibility in space, people, systems, equipment and locations. Clients save money, lower liabilities and increase speed to market through flexible warehousing, multiple market network, established transportation networks and integrated systems. All solutions are supported by technology that provides real time visibility throughout the supply chain by providing information that is web enabled, customer defined, and exception based.

As you have questions, or opportunities arise, please contact me by phone or email and I'll make sure you get in touch with the correct representative of the Turbo and OH Logistics family to fill that need.

Greg Syfan,  
President, Turbo

*Transportation and Logistics Management, and Much More!*

**Scott McWilliams, CEO**  
**OH Logistics**

# The Ozburn-Hessey Logistics Family

Founded in 1951 and based in Tennessee, **Ozburn-Hessey Logistics** (“OH Logistics”) is one of the nation’s largest privately held 3PLs, serving Fortune 1500 companies with strategically placed, multi-client warehouse campuses, as well as numerous dedicated facilities. The company serves the food service consolidation, industrial, electronic and high tech, pharmaceutical and medical, health and beauty, and consumer products industries. OH Logistics manages over 21 million square feet of warehouse space, provides transportation management, has a small parcel program, offers consolidation, pool distribution and a tremendous amount of value added services. Flex-space warehousing is offered at all the nation’s major hubs to meet challenges such as seasonal demands, product overflow, new product introductions, and business lines where future demand is unknown. [www.ohlogistics.com](http://www.ohlogistics.com)

The Ozburn-Hessey Logistics family of companies, in addition to **Turbo Logistics**, includes:

**Barthco International, Inc.** provides customs brokerage, international freight forwarding, inbound transportation and cargo management, import and export consulting services, and is licensed by the Federal Maritime Commission as an Ocean Freight Forwarder and as a non-Vessel Operating Common Carrier (NVOCC). Barthco provides “one stop shopping” for an importer’s global transportation needs, regardless of the origin. Barthco brokerage services improve the coordination between forwarders and brokers dramatically. Established in 1908, Barthco has expertise in such areas as food, pharmaceuticals, apparel and fine art. The company has 700 associates in eighteen offices, including one in Hong Kong, serves approximately 3,000 clients and manages over 700,000 shipments a year. [www.barthco.com](http://www.barthco.com)

**Freightek, Inc.** provides software solutions for monitoring and managing international freight activity. The company is also an application service provider for U. S. Customs and Border Protection (U.S. CBP) connectivity. Freightek solutions are used by over 200 CBP brokers, forwarders, importers, and exporters. [www.freightek.com](http://www.freightek.com)

**ProVenture Commercial Real Estate** helps companies locate available space, build facilities and divest property no longer needed.. [www.pvcre.com](http://www.pvcre.com)

**Material Handling Resources** provides warehouse equipment including forklifts, conveyors and racking. MHR provides flexibility by repositioning equipment as customer demands shift and supports speed to market requirements by providing expertise in MHE solution design and procurement. [www.mhrweb.com](http://www.mhrweb.com)

**Lanter Distributing** provides a regional temperature-controlled less than truckload network that supports the food and medical industries and is a founding member of NDS, a national network of regional temperature controlled carriers.

**Personnel Services, Inc.** provides temporary workers, primarily in Nevada, for peak periods.

Regarding the newest members of the OH Logistics Family, Barthco International, Freightek, Inc., and Turbo Logistics, **Scott McWilliams**, CEO of OH Logistics, said, “Linking the services of these companies adds real value to our clients and allows OH Logistics to offer increased visibility and additional supply chain solutions to the industry. Each company has clients who need the services of the others. These acquisitions bolster OH Logistics’ overall strategy - growth that allows us to offer a broader range of services to attract and keep great clients.”

## ***Our Mission***

**Our mission is to provide flexible logistics services that support the changing demands within our clients supply chains.**
